No  Yes

If above answer is yes, provide a brief narrative justification of how the premium pay or grant is responsive to workers performing essential work during the public health emergency. This could include a description of the essential workers' duties, health or financial risks faced due to COVID-19, and why the recipient government determined that the premium pay was responsive to workers performing essential work during the pandemic. This description should not include personally identifiable information; when addressing individual workers, recipients should be careful not to include this information. Recipients may consider describing the workers' occupations and duties in a general manner as necessary to protect privacy.
